BEST PACKAGING®
PROSET
Automatic Set-up Control

Replaces obsolete controls with the latest technology to improve the productivity of your Flexo Folder Gluer.

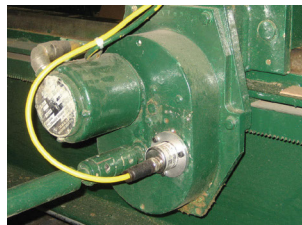

BEST PACKAGING®
PROSET & PROSET+

BEST PACKAGING ProSet is a scalable solution based on the popular Allen-Bradley Logix PLC platform. The same controller and software can serve as a simple set-up control retrofit...or a complete integrated machine control upgrade replacing obsolete PLC components and DC drives—
Best Packaging ProSet Plus ...one hardware platform...one software tool...one operator interface.

Components

All systems are comprised of “off the shelf” components from leading manufacturers -
no proprietary hardware is used.

All are programmed with Allen-Bradley RSLogix 5000 software; it is “PC free” -
no Windows or Linux operating system.

Absolute Position Encoders

Allen-Bradley ControlLogix PLC

15" Color Touchscreen HMI

The system is “OEM independent,” our standard components have been applied to a wide range of converting machines including, Ward, Langston, S&S, Martin and Emba. The scope of ProSet ranges from a simple set-up control retrofit, to a complete machine control upgrade and re-wire.

Applications

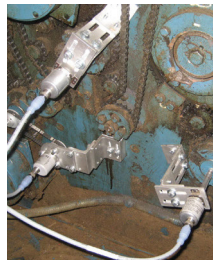

*Ward FFG Complete Control
Upgrade/Rewire 11 Axes*
